

Lightroom 4

Digital Asset Management

&

Photo Editing

If you want to manage all your images your digital assets, create incredible images that move your viewers or just experiment with editing tools that are non-destructive and finally showcase your work with one of the finest tools from Adobe you need to sign up for this Lightroom 4 One Day workshop.

Whether you are an amateur or pro, you need a wide range of tools to keep your digital projects creative and organized. Lightroom provides all your essentials in one intuitive package. This workshop will teach you how to take your photography to an amazing new level of productivity, efficiency, and fun.

You'll learn how to set up Lightroom the right way from the start, saving you hours time and frustration. You will learn how to bring your photos right into Lightroom so you see the entire process from beginning to end.

You'll learn about all the modules and how to edit your RAW, TIFF, and JPEG images like a pro. You will learn how to use Photoshop and Lightroom seamlessly to dramatically increase your productivity and enhance your workflow.

Finally you will learn how to set up and customizing a professional presentation and printing. You will also learn how to create a a web based presentation of your Lightroom prepared images.

This workshop is designed for the serious amateurs, hobbyists and emerging pros.

You should bring your laptop with Lightroom 4 installed (you can download a trial version - call me if you have problems). Bring a few sets of images from various shoots and locations and determine which ones you might like to work on during the hands-on session.
